CIGARS
Liked by Good Cigar
Judges

It is no easy matter to get together
an assortment of prime cigars so wide-
ly diversified in form, flavor and
strength that it will make possible the
exact suiting of the many preferences
of smokers.

However, time, effort and experience
will accomplish it and have accom-
plished it as an examination of the
contents of our cigar case will prove.

We have many regular patrons who
are good cigar judges—our success
in pleasing them promises well that
we can precisely please your particular
cigar preferences—may we try?

Decision of Widespread Importance.
Judge Shumway Gives the Assessors and Boards of Re-
lief a New View of the Ten Percent Proposition
—Holds Good Throughout the State.

The recent ruling of Judge Shum-
way in the case of Thomas B. Hewitt
va. the town of North Stonington,
holding that non-residents are not lia-
ble under the act of 1899 to a ten per
cent addition because of omission to
give in lists, is of much interest, as
the assessors and boards of relief
adopted a different view. Prior to the
passage of the act the property of non-
residents has always been exempt
from taxation, except that in-
dividuals in mercantile, manufacturing
mechanical business. As to real estate
and personal property of the kind
named, non-residents were never
required to give in lists, but the assessors,
if not given in, made out the lists
from the best information obtainable.
But the act of the last general as-
sembly for the first time made all tan-
gible personal property of the kind
named in the act liable for taxation in
the town seven months of the year. It
provided further that non-residents
should give in lists either personally or

by agent or attorney, in the same way
as residents, but it did not provide
that in case of failure to do so the
assessors should add ten per cent for
such failure. Mr. Hewitt treated the
matter as he had always done and
gave in no list of his property in
North Stonington, and the assessors
added a list for him and added ten
per cent, as in case of residents. The
board of relief refused to allow the list
and in the view of the law on the part
of the assessors could not be sustained
and that the ten per cent should not
have been added.

Mayor Thayer Issues Another Letter,
But Doesn't Think Prohibition Is Al-
ways a Good Thing.

Norwich, Conn., Aug. 17, 1910.
To the Prohibition Party in Connecti-
cut:

As an aspirant for senatorial hon-
ors, the writer is beating every bush
for votes; and with his ear close to
the ground, he has been told that he
should adopt the Meriden convention. It
is a peach. Your declaration that the
liquor traffic is a more abundant
source of crime, pauperism, insanity
and social misery, and that the licen-
sing of this traffic is a sin against God
and a crime against man, is undoubt-
edly correct.

In passing, it may be well to in-
quire where are the county commis-
sioners—those great men who do the
licensing and who are to be the
licensing power to control the liquor
vote in the interest of the Grand Old
Party of High Moral Ideas—where
are they to get off? Every mother's
son of them will be found work-
ing for senatorial honors, and I never
to my knowledge been found on
the water wagon. I note that you in-
volve every mother's son of them in
influence to assist you in the abolition
and extermination of the greatest curse
to human society.
